1. In God we trust, with hope so sweet, In His son's name we pray. While through this dark - ened world we seek, They'll al - ways show the way. In God we trust, though dark the haze; His un - seen hand will guide. And when his world up - on us weights, with - in His light we'll stride.

2. In God we trust, His words we'll heed; His words that bring new life. To His com - mands our lives we'll cede; We'll then live with - out strife. In God we trust though to show the way Back to our home on high; And Straight is His path; nar - row His way; We'll make it by - and - by.

3. In God we trust, on Him we'll wait; For His time we will bide To That we may soar e - man - ci - pate; Up - on His wings we'll glide. In God we trust our hearts and souls; We trust our life and limb. We give our lives to His con - trol So we be - come like Him.
